

# Eden Streets

Growing jobs, connections,  
and hope through farming

For those who aspire to this way of seeing and being, please consider adopting our pledge.

## Eden Streets Member Pledge

*A farmer brings forth more life. A farmer orchestrates and conducts within ecosystems to initiate and enhance growth to realize a harvest. Farming is a profession that plants, cultivates, and harvests fields of life. A farm is a defined site of enterprise which produces life-sustaining energy and life-enhancing experiences.*

*As a farmer, I promise to be respectful, responsible, kind, and caring of myself, of others, and of the world that we build together. As I observe and learn in Earth's growing space, I will live as Nature does: being generous, cooperative, and forgiving.*

*As an Eden Streets member, I believe that:*

- *Every individual emanates light*
- *Each individual has immense value*
- *Individuals transform through engagement with Nature*

*As a member of the Eden Streets community, I pledge to cooperate to build an ecosystem of relationships and partnerships that are mutually beneficial. With my fellow farmer friends, I will celebrate working together as we grow peace, love, and life!*
